

SIDHARTH KAMBLE

DATA SCIENCE & ANALYTICS

Pune, Maharashtra | +91 9049845743 | sidharthuk358@gmail.com | github.com/sidharth-kamble | linkedin.com/in/sidharthkamble467885

PROFESSIONAL SUMMARY

Computer Engineering student (graduating 2026) specializing in data analysis and business intelligence. Built four end-to-end data projects using Python, SQL, and Power BI — spanning web-scraped labor-market data, multi-region sales KPIs, and a 75-query relational banking system — each taken from raw/messy data through cleaning, analysis, and dashboard-ready storytelling. Comfortable across the full analyst toolkit: Pandas for data wrangling, SQL for querying relational databases, and Power BI/DAX for stakeholder-ready visualization. Seeking an entry-level Data Analyst or Data Science role where I can turn data into decisions.

EDUCATION

B.E. Computer Science & Engineering	2022 – 2026
Takshashila Institute of Engineering and Technology, Darapur	
HSC – PCM & PCB	2022 79.17%
Sevadas Jr. College, Vasantnagar	
SSC	2020 79.00%
Zilla Parishad School, Sawargaon (P)	

TECHNICAL SKILLS

Languages & Databases	Python, C, SQL, MySQL
Data & Analytics	Pandas, NumPy, Matplotlib, Seaborn, Power BI, DAX
Web & Frameworks	Flask, Django, FastAPI
Tools & Concepts	Git, GitHub, Jupyter Notebook, OOP, DSA, DBMS

PROJECTS

1. Banking Analytics Dashboard

github.com/sidharth-kamble/BANKING-ANALYTICS-DASHBOARD

- Modeled a relational banking database (customers, loans, transactions, branches) and wrote 75+ SQL queries spanning Joins, Window Functions, Subqueries, Stored Procedures, and Triggers.
- Built a 4-page Power BI dashboard with DAX measures and KPI cards to surface loan performance, transaction trends, and branch-level insights for business decision-making.

Tech: MySQL, SQL, Power BI, DAX, Microsoft Excel

2. Sales Analytics Dashboard

github.com/sidharth-kamble/Sales-Analytics-Dashboard

- Built an interactive multi-region dashboard covering 10+ regions and 50+ products with 8+ chart types (bar, line, KPI cards) for tracking revenue and demand trends.
- Wrote a Pandas cleaning pipeline achieving 100% consistent, analysis-ready data, cutting manual reporting time compared to spreadsheet-based tracking.

Tech: Python, Pandas, Matplotlib

3. Job Market Skills Analysis

github.com/sidharth-kamble/job-market-skills-analysis

- Scraped and analyzed 2,000+ live job postings to identify the top 10 in-demand skills across 5 data roles, visualized as skill-frequency heatmaps.
- Reduced raw-data noise by ~35% through a custom Pandas cleaning pipeline; packaged findings into a shareable Jupyter Notebook.

Tech: Python, Pandas, Matplotlib, Jupyter Notebook

4. Superstore Sales Analysis

github.com/sidharth-kamble/superstore-sales-analysis

- Ran exploratory data analysis on a ~10,000-row Kaggle retail dataset, identifying 23% profit concentration in Office Supplies and the top-performing sub-categories.
- Translated findings into 3 actionable inventory recommendations, documented in a public Jupyter Notebook report.

Tech: Python, Pandas, Matplotlib, Seaborn

CERTIFICATIONS

Data Science — CodeWithHarry (2025) • Power BI Micro Course — CodeWithHarry (2025) • Data Science & Analytics — HP LIFE (2024) • Artificial Intelligence — HP LIFE (2024) • Web Development — MSME (2024)

ACHIEVEMENTS & ACTIVITIES

- Self-initiated and completed 4 full data projects outside coursework, each scoped, built, and documented independently end-to-end.
- Maintain 4 public GitHub repositories with structured documentation, clear READMEs, and clean commit history.

SOFT SKILLS

Problem Solving • Analytical Thinking • Teamwork • Communication • Time Management
